**Dear jk p**

To understand yourself is the beginning of wisdom.

**You are Action Oriented, Auditory and Operational Taskmaster**

You like to move fast and be proactive to make your plan work, like to listen to the conversation, then carry out the task, as such, you need to be task-oriented, fast and aggressive in the things you do.

**Your physical environment, describe you are: Characteristically Extrovert & Socially Ambivert**

You tend to seek out social stimulation and opportunities to engage with others. In group situations, you are likely to be more physically expressive, talk often and assert yourself. You gain energy from engaging in social interaction, gain inspiration and excitement from talking and discussing ideas with others.

**To describe you the best, you are : A Realist**

You prefer to rely on facts and past events, rather than hopeful feelings and wishes to predict the future. You communicate realism rather than visionary thoughts. You love the best of both worlds.

**Your Hidden Potential - "Blind Spot" :**
